

APPLIED BUSINESS

Program Description

This program prepares students for an exciting career in the field of business. An associate's degree gives students an opportunity to lead a team, start a business, and develop skills to improve an existing business.

The Applied Business program at CMU Tech features:

- Technical, interpersonal and soft skill courses that prepare students to enter the workforce.
- Course content that is relevant to today's business needs. Training is focused on current business trends and demands, diverse learning styles, hands-on classroom experience and practical program-related work.
- Small class sizes ensure students receive the level of instruction needed to excel in today's business world.
- Traditional classroom instruction and classes offered at night or online.
- Flexible curriculum that includes several one-semester Technical Certificates.
- An agreement with Colorado Mesa University's Davis School of Business enabling students who complete a two-year degree to seamlessly move to CMU to earn a Bachelor of Applied Science in Business Administration.
